(54) Title: CAMEL WITH LUMINOUS STICK

(54) Título: CARAMELO CON MANGO LUMINOSO

(57) Abstract

The caramel has a tubular stick or handle the extremities of which have been sealed after incorporating two or more different chemical products which, once in contact, emit a diffuse luminosity through a simple strong pressure exerted on the stick or handle or by bending the same; this caramel is of single or double construction, at the respective extremities, with the stick either bent or incorporated into the caramel or connected to a short intermediary stick, with the possibility of substituting a caramel by a puppet which transmits said diffused light.

(57) Resumen

Dispone de un mango tubular (2) y con extremos sellados (3), tras la incorporación consecutiva en su interior de dos o más productos (4, 5) químicos diferentes que, una vez puestos en contacto emiten una luminosidad difusa, por una simple presión fuerte ejercida sobre el mango o por doblez del mismo, construyéndose estos caramelos simples o dobles, en los extremos respectivos, bien con los mangos incorporados en ellos o bien conectados a un palo corto intermedio, pudiendo substituirse un caramelo por un muñeco, que transmite esa iluminación difusa.

INTERNATIONAL SEARCH REPORT

International Application No
PCT/ES 98/00026

A. CLASSIFICATION OF SUBJECT MATTER
IPC 6 A23G3/00

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
IPC 6 A23G

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category °	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
A	US 4 972 623 A (J. R. DELRICCO) 27 November 1990 see the whole document ---	1
A	US 4 914 748 A (W. K. SCHLOTTER ET AL.) 3 April 1990 see the whole document ---	1
A,P	FR 2 744 336 A (DI ROSA J. ET AL.) 8 August 1997 see the whole document ---	1
A	US 5 545 069 A (K. P. GLYNN ET AL.) 13 August 1996 ---	
A	FR 2 397 793 A (DE NANTE D'AVIGNONET C. ET AL.) 16 February 1979 -----	

Further documents are listed in the continuation of box C.

Patent family members are listed in annex.

° Special categories of cited documents :

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- * & * document member of the same patent family

Date of the actual completion of the international search
